

HORIZON 2020

The three H2020 Pillars

H2020 acronyms, what they stand for
and where you fit in

HORIZON 2020

Excellent Science

ERC

European Research Council

- STG** Starting Grant
- COG** Consolidator Grant
- AdG** Advanced Grant
- PoC** Proof of Concept Grant

FET

Future and Emerging Technologies

- FET Open**
 - RIA** Research and Innovation Actions
 - CSA** Coordination and Support Actions
- FET Proactive**
- FET Flagships**

MSCA

Marie Skłodowska-Curie Actions

- ITN** Innovative Training Networks
 - ETN** European Training Networks
 - EID** European Industrial Doctorates
 - EJD** European Joint Doctorates
- IF** Individual fellowships
 - CAR** Career Restart panel
 - RI** Reintegration panel
 - SE** Society and Enterprise panel
 - ST** Standard European Fellowships
 - GF** Global Fellowships
- RISE** International and inter-sectoral cooperation through the Research and Innovation Staff Exchanges
- COFUND** Co-funding of regional, national and international programmes that finance fellowships involving mobility to or from another country
- NIGHT** The European Researchers' Night

RI

Research Infrastructure

- INFRADEV** Development and long-term sustainability of new pan-European research infrastructures
- INFRAIA** Integrating and opening research infrastructures of European interest
- EINFRA** E-Infrastructures
- INFRAINNOV** Fostering the innovation potential of research infrastructures
- INFRA SUPP** Support to policy and international cooperation

guide

Industrial Leadership

LEIT Leadership in Enabling and Industrial Technologies

- NMBP** Advanced materials and nano technologies for high added value products and process industries
 - EEB** Energy-efficient buildings
 - NMBP**
 - Green vehicles
 - Advanced materials and nanotechnologies for healthcare
 - Advanced materials and nanotechnologies for energy applications
 - Eco-design and new sustainable business models
 - Modelling for the development of nanotechnologies and advanced materials
 - Science-based risk assessment and management of nanotechnologies, advanced materials and biotechnologies
 - Innovative and responsible governance of new and converging enabling technologies
 - Biotechnology
 - Circular economy
- ICT** Information and Communication Technologies
 - A new generation of components and systems
 - Advanced computing
 - Future internet
 - Content technologies and information management
 - Robotics
 - Micro- and nano-electronic technologies, photonics
- SPACE**
 - EO** Earth Observation
 - COMPET** Competitiveness of European Space Sector
 - GALILEO-GSA** Applications in Satellite Navigation

Access to risk finance InnovFin EU Finance for Innovators

Innovation in SMEs

- FTI** Fast Track to Innovation
- SMEInst** SME Instrument
- INNOSUP** For a better innovation support to SMEs

Contractual cPPPs

- EeB** Energy-efficient Buildings
- FoF** Factories of the Future
- SPIRE** Sustainable Process Industries

Innova Joint Technology Initiatives (JTIs)

- IMI** Innovative Medicines Initiative
- Clean Sky** Aeronautics and Air Transport
- FCH** Fuel Cells and Hydrogen
- Artemis** Embedded Computing Systems
- ENIAC** Nanoelectronics Technologies 2020

Societal Challenges

Health

- PM** Personalised Medicine
 - Understanding health, well-being and disease
 - Preventing disease
 - Treating and managing disease
 - Active ageing and self-management of health
 - Methods and data
 - Health care provision and integrated care
- HCO** Coordination Activities

Food

- SFS** Sustainable Food Security
 - More resilient and resource efficient value chains
 - Environment-smart and climate-smart primary production
 - A competitive food industry
 - Healthy and safe foods and diets
 - EU-Africa partnership
 - EU-China FAB (food, agriculture and biotechnology) Flagship initiative
- BG** Blue Growth
 - Boosting innovation for emerging Blue Growth activities
 - Linking healthy oceans and seas with healthy people
 - The Arctic dimension
 - Valorising the Mediterranean Sea basin
- RUR** Rural Renaissance - Fostering innovation and business opportunities
 - New approaches towards policies and governance
 - New value chains and business models
 - Innovation and skill development

- BB** Bio-based innovation for sustainable goods and services
 - Securing sustainable bio-mass supply
 - Building the "bio-based markets of the future"

Energy

- EE** Energy Efficiency
 - Heating and cooling
 - Engaging consumers towards sustainable energy
 - Buildings
 - Industry, services and products
 - Innovative financing for energy efficiency investments
- LCE** Competitive low-carbon energy
 - Towards an integrated EU energy system
 - Renewable energy technologies
 - Enabling the decarbonisation of the use of fossil fuels
 - Social, economic and human aspects of the energy system
 - Supporting the development of a European research area
 - Cross-cutting issues

Transport

- MG** Mobility for Growth
 - Aviation
 - Waterborne
 - Safety
 - Urban mobility
 - Logistics
 - Intelligent transport systems
 - Infrastructure
 - Socio-economic and behavioural research
- ART** Automated Road Transport
- GV** Green Vehicles

Environment

- SC** Greening the Economy
 - Climate services
 - Towards a low-carbon Europe
 - Nature-based solutions for territorial resilience
 - Water
 - Raw materials
 - Earth observation
 - Cultural heritage for sustainable growth
 - Support to policy innovation procurement

Society

- CO-CREATION** Co-creation for growth and inclusion
- REV-INEQUAL** Reversing inequalities and promoting fairness
- ENG-GLOBALLY** Engaging together globally
- CULT-COOP** Promoting the European public and cultural space

Security

- CIP** Critical infrastructure protection
- SEC** Security
 - Disaster-resilience: safeguarding and securing society
 - Fight against crime and terrorism
 - Border security and external security
- DS** Digital Security focus area

- SEaWP** (Spreading Excellence and Widening Participation)
- SwafS** (Science with and for Society)

Our services for your project

We like sharing our many years of experience in EU and national funding programmes with scientists, entrepreneurs, politicians and everybody with an interest in research, development and innovation. We have been a partner in EU funding projects in the life sciences, ICT, energy and other areas, as well as in manufacturing and materials.

Funding Advice

Searching for an appropriate funding programme to finance your R&D and innovation project? Together, we identify the best suitable scheme for your venture – at national or EU level.

Proposal Writing

Preparing a project proposal for Horizon 2020 or another (EU) funding scheme? We would be delighted to jointly elaborate a competitive grant application with you.

Contract Negotiations

Requiring assistance for the contract negotiations of your innovation project? We execute all tasks in this mostly administrative process – including the consortium agreement.

Project Management

Looking for a reliable partner for (EU) Project Management? We assume responsibility for administration, reporting, finances, the organisation of meetings and many more tasks.

Project Dissemination

Keen on disseminating and exploiting your project results? As a project partner, we create websites, print material and various other communication tools, support you in organising project events, and develop marketing plans.

Our experts for your support

We will assist you in identifying the best suitable funding instrument in Horizon 2020 and other funding schemes for your research, development and innovation project.

Dr. Jeanette Müller

H2020
guide

Try out the first interactive H2020 Guide!
It provides you estimates on available funding,
helps you identify suitable funding schemes,
and answers basic and advanced questions on
Horizon 2020.

www.h2020guide.eu

one
two
grant

Discuss possible funding opportunities tar-
geted to your specific innovation projects in
confidential one-to-one meetings. You will
profit from our know-how and will receive
information that can help your project.
